May 23, 2017

Dear Parents,

The *TerraNova 3* score reports for your children have been delayed this year due to circumstances beyond the control of ACSI or your school. Data Recognition Corporation, ACSI's assessment partner, is converting its systems to a new platform. Maintaining the integrity and accuracy of the score reports through this conversion has caused this ongoing delay.

We understand the burden this puts on your Christian school and you as parents. For that, we are deeply sorry. We have let you down.

ACSI assures you of our uncompromising commitment to serve your school community through this assessment program. We are aggressively addressing this issue with Data Recognition Corporation to make sure that it is completely resolved and will not be repeated.

Sincerely,

The ACSI Assessment Team
